WORK EXPERIENCE

Junior .NET Developer

Redix Informatica | 2023

Design and development of a standalone application for managing pharmacy shifts in the Microsoft environment, created in .NET C#.

Internal Stage

University of Milano Bicocca | 2022

Implementation of a web application capable of modifying user-uploaded images, created using Python, Javascript, CSS, and HTML.

EDUCATION

Bachelor's Degree Computer Science

University of Milano Bicocca | 2019 - 2022

Scientific High School

Leonardo da Vinci Carate | A.S. 2014 - 2019

SKILLS

Software Development

I am highly versatile and proficient in various programming languages. My approach to learning is project-based: I acquire new skills and technologies based on the specific requirements of each project.

The programming languages I have the most experience with are Python, Java and C#.

Website Development

I build responsive websites with HTML, CSS and JavaScript

Operative Systems

I am comfortable using major operating systems such as Windows, macOS, and Linux environments.

Other Skills

Basic knowledge of Swift, C++ and SQL
